

The Shot Glass by Jimmy Fan and TCC

One of the most popular magic tricks at parties is producing a glass of wine from a handkerchief, and **The Shot Glass** was born for this classic magic.

Quick to set up and perform at any time, The Shot Glass is ready to amaze your friends at gatherings.

Show both sides of the handkerchief to the crowd, demonstrating it is empty. Covering your left palm with the handkerchief, when you lift it with your right hand, a glass of wine magically appears in your left hand.

No need for extensive misdirection or loading a glass from the table's edge. With just a handkerchief, you can effortlessly and quickly produce a glass of wine. Any handkerchief or even a napkin can be used for the performance.

It represents one of the most direct, cleanest, and reliable versions of the produce-wine-from-handkerchief effect.

It's one that you can carry the drink in advance, ready to perform at any moment, producing a real drink that can be consumed and even tasted by the audience, and everything is examinable.

Jimmy Fan's meticulously designed mechanism allows you to carry a glass filled with a drink without any spills. Whenever you want, you can produce a drink by simply pulling out a handkerchief. The prop comes with an ordinary handkerchief, but you can also use a napkin, newspaper, or tablecloth to perform this trick.

The transparent glass features mysterious patterns inspired by the Sanxingdui culture, adding an element of intrigue. The cup itself is a regular glass, fully examinable by the audience. You can prepare various beverages like alcohol, tea, or juice.

The props are small and portable, suitable for close-up and mid-range magic performances. All it takes is a few seconds to set up, making it the highlight of your opening performance. Perfect to amaze your friends at gatherings.

Features

- Carry the drink in advance
- Quick setup and ready to perform at any moment
