

Universal Smoke Watch by João Miranda

Gone are the days of having a special watch to produce smoke.

Designed from the ground-up by João Miranda Magic in Portugal, the **Universal Smoke Watch** is the magician's ultimate secret weapon: powerful, versatile, and designed with professionals in mind. It's perfect for enhancing visual effects, card magic, or mentalism, and it's equally stunning in impromptu situations.

The **Universal Smoke Watch** is a groundbreaking EDC gimmick that fits under your regular watch band, allowing you to produce a burst of smoke instantly. It's invisible, portable, and easy to operate, offering a flawless way to enhance your magic routines with the touch of a button.

Key Features:

- **Instant Setup:** Attach or remove the gimmick in seconds, with no complex adjustments, being perfect for EDC.
- **Programmable delay:** allows for a hands-free smoke production
- **App-Controlled:** Customize timing and smoke output via the intuitive companion app, giving you full control over your performance.
- **Unparalleled Portability:** The slim, discreet design makes it easy to carry and use without drawing attention.
- **High-Quality Smoke:** Delivers a consistent, dense plume of smoke to create a moment of pure astonishment.
- **Removable Battery:** The battery can be easily removed from the gimmick, allowing for quick replacements in seconds. Never worry about running out of power mid-performance.

Activation Methods

:The **Universal Smoke Watch** offers two versatile methods to activate the smoke, ensuring you're always in control:

1. **Discrete Button:** A small button located on the side of the gimmick allows the magician to trigger the smoke effortlessly with a simple press of the finger.
2. **Remote Control:** With 5 meters range, this option is perfect for more

elaborate stage routines or when you need to produce smoke at a distance.

Comes complete with everything you need inside a custom foam case for extra protection.

Note: For optimal performance, we suggest using a watchband with a width of **22mm**.
