

## Fast Forward by Victor Sanz and João Miranda

What happens when you take a classic comedy gag and supercharge it with jaw-dropping visuals and a shocking surprise? You get **Fast Forward by Victor Sanz**-a game-changer in magic that leaves audiences laughing, gasping, and totally fooled.

**Step 1:** A spectator freely picks a number between 1 and 10, revealing a celebrity.

**Step 2:** The magician shows that celebrity... as a Baby

**Step 3:** The kicker? When the spectator presses the "**Fast Forward**" button on the back of the card, the baby INSTANTLY TRANSFORMS into their chosen celebrity-right before their eyes!

This isn't just a trick-it's **a full-blown routine** packed with comedy, audience engagement, and a visual transformation so clean it looks like CGI in real life.
