

Blank Night 2025 Edition (Blue) by John Archer

The first-ever trick to fool Penn & Teller on "Fool Us" is back with a new version featuring updated envelopes and instructions!

Back in 2011, during the first season of "Penn & Teller: Fool Us", John Archer managed to leave the iconic duo dumbfounded with a sneaky twist on an all-time classic. This signature routine **Blank Night** is one of the most entertaining and deceptive **Bank Night** effects you'll ever see.

You show five envelopes and explain how only one of them contains the top prize of \$100 (or whatever amount or currency you desire). The other four have \$0 bills, slips of paper, or even nothing at all.

Four different audience members freely choose whichever envelope they want. Upon opening them, they discover that, unfortunately, they have not won the top prize. It's clear that the last envelope you're still holding contains the top prize. The way that prize is revealed though is where **Blank Night** strays from the normal path and is the moment that earned John the coveted "Fool Us" trophy.

Without any suspicious moves, you take the final envelope and open it to reveal \$100. Not only that, but it's \$100 in multiple bills that are NOT folded or wrinkled in any way. Everything can be seen being pulled directly from the envelope. There's very clearly no thumb tips or body loads in play.

You won't find a Bank Night more direct and impossible than this.

- Very easy to do
- No sleight of hand
- No equivoque or forces
- No thumb tips or body loads
- No envelope switches
- Works with paper or polymer currency

In collaboration with Vanishing Inc., John released **Blank Night** shortly after his "Fool Us" appearance and it was an instant success. After selling out on numerous occasions, it was unavailable for years before now. This updated version offers stunning new envelopes in two vibrant colors (**Blue or Orange**), as well as a brand-new video tutorial that makes it easier than ever to learn this

amazing routine.

Blank Night is suitable for magicians of any skill level. Each set comes with the specially manufactured envelopes, as well as the deviously simple gimmick that allows you to perform this routine within minutes of opening the package. Not only will you learn John's full routine, but the envelopes come blank so that you can customize them however you want.

NOTE: A couple dabs of restickable glue will need to be applied to the gimmick. Both John and Vanishing Inc. recommend Zig 2 Way Glue, which is readily available online and many other stores.
