

## Descendents - Pokerdeck

The **Descendents Playing Cards** were created by Elijah Myers who is one of our favorite magicians and goes by the name of card perfect magician. The **Descendents Playing Cards** has the cardistry enhanced punch line and features a bold green color with an intricate design to take your cardistry skills to the next level.

The spiral back design with a thin border makes these cards perfect for fans, spreads and other cardistry moves like pirouette, hotshot, and cyclone look absolutely stunning.

Considering the motto for **Descendents Playing Cards** is "*No matter how far you descend, you can always look up*" all the court cards look up as well.
