

## The Magic Tube (M&Ms)

From the creative minds of Gabbo Torres and George Iglesias was born The Magic Tube, a new and innovative magic makeup with chocolates!

"Deliciously magical!"

Jeff McBride effect:

Here is a fantastic mental make -up by Gabbo Torres and George Iglesias, with 5 tricks in one! You can use it for magic with children, for prestigious games and for mentalism!

The magician shows a tube of M&M and shakes it to show that it is empty. The tube opens and extracts, from the inside, a white scarf with the M&M logo and some m & m's printed above. It shows that the tube is empty, closes it and gives it to a viewer so that he holds him in his hand. The scarf is inserted into the wizard's fist and then vanishes into thin air! The viewer is asked to open the tube and, with his surprise, the scarf is again in his place!

But wait, there is more!

The scarf is put back in the tube. The lid is closed, leaving a corner of the scarf protruded and visible. The magician passes the tube to another spectator and asks him to shake him. With his great surprise, he manages to hear the real M & M's moving inside! The lid reopens and remove the scarf. Now on the white scarf only the M&M logo is printed and no M&M's! Real M&Ms are poured by the tube directly in the spectator's hand! Everything can be completely examined!

Includes 4 powerful bonus effects and some fun mentalism features.

A new surprising effect! Easy to make! It's in the pocket! Excellent reactions! Perfect for children, room magic and Close-up magic.

Bonus effects:

1. Magically transform all the M&M's into the same color, while they are inside the tube!
2. Magically revealed the number of M&M that the viewer secretly holds in hand, as well as their colors!
3. Magically transform all the M&M's into the spectator's hand into M&M's of the

same color!

4. Fill the tube of magic, making the M&M climb from the bottom up and completely fill the tube.

Includes:

1 plastic tube of M&M's.

2 special white scarves with prints.

1 gimmick.

1 online didactic video.

4 bonus effects.
