

Prime Box (Big Size) By Twister Magic - Bühnentrick

George Iglesias presents us with his latest creation, the incredible PRIMEBOX! A portable magic device disguised as a shipping box that will allow you to perform not only great effects but also solid and powerful routines!

You show a completely empty shipping box, now close it, wave your hands over it and magically fill the box with the products or items you want to appear. The best part? The box is now completely revisable! It is also fully customizable, you receive various stickers to make it look however you want, AMAZON PRIMEBOX, DHL, FEDEX, USPS or your own design. This box has been specially designed to hide objects and fool the human eye, creating a perfect optical illusion of emptiness.

Can you also imagine showing an empty box, closing it, then asking a spectator to select any product from any store and now you wave your hands and make that object appear from the box? Now with PRIMEBOX it is possible! How amazing right? The possibilities are endless! Perfect for multiple types of magic from parlor and stage magic to master of ceremonies magic, children's magic, TV presentations, grand illusion shows and social media videos.

Made from a good quality and thickness cardboard, it is very easy to set up and take down in minutes.

Effects:

Great effects are possible, you can even create your own routines, here are some cool tricks you can perform:

1) Multiple Objects Appear: Imagine showing a shipping box with the brand of your choice (DHL, USPS, AMAZON, FEDEX or your favorite carrier), you open it and show that it is completely empty inside. Now you do your magic and when it is opened again many things appear from inside, handing the box to the spectators at the end for them to examine closely.

2) Prime Delivery: You open the box to show that inside there is only bubble wrap and Kraft paper. Now show the box completely empty inside, close it again and now ask a spectator to select a product from the vast universe of Amazon. You concentrate, do your magic and materialize that product from the box that was empty a minute ago, but even better the box can be completely examined!

3) Burning Shoe Appearance: If you perform the Burning Show routine in your shows, this will be the perfect way to make the shoe reappear for the child.

4) Wrong Delivery: Show a FEDEX box. Open it to show that you have received an incorrect order from your favorite store, take these products out of the box and put them aside, to show that the box is empty inside. Move your hands over the box and magically the correct ordered products will appear in it. At the end, hand the box to the audience for them to fully examine.

5) Confabulation Prediction: You show an empty courier box, then you close it and put it aside, but still leaving it visible. You ask someone to select a famous person (For example, Tom Cruise), now they go to the website of a store of their choice (For example: Macy's) now they choose a product from that store (For example: A fragrance). Now after the spectator has selected these three things, you draw their attention back to the box, when they read the label, this is a package that Tom Cruise sent you, now the box is opened again to discover inside a receipt for collection that is precisely from the Macy's store and for the grand finale, the selected fragrance also appears inside the box as a gift sent by Tom Cruise himself to you.

SPECIAL BONUS:

In addition to all the benefits of Prime Box, thanks to our friends at MAGIC PRO IDEAS, with the purchase of your PRIME BOX you will receive a \$30.00 USD discount coupon to be able to buy and download the incredible magic application ANYWEB (Price at \$59.99 USD, you will only have to pay \$29.90) This application is a perfect complement to PRIME BOX, Anyweb is an incredible application that allows you to force basically everything you want from any website such as Google, Netflix, Instagram, Facebook, Wikipedia, Ebay, Amazon or any other website you want.
