

MagicBox Large by Twister Magic (black)

A classic of magic revisited in a modern key by George Iglesias!

Over the years, the drawer box has become a classic of magic, a versatile tool that allows the magician to show an empty box and then make many objects appear. Usually, all the drawers are made of wood or acrylic ... ok, okay, but what would happen if you can now present this effect with a modern and more realistic box? Here it is!

Do you want to make your Magicbox look like a shoe box and perform many fantastic routines, or transform it into a toy box? A box with a teddy bear? Cookies? Candies? And much more, everything you want appears! The limit is your imagination!

Perfect for living room magic, stage magic, children's magicians and even clowns!

Includes pre-compliant stickers of marks of shoes, sneakers, toys, teddy bears, cupcakes and stars to personalize your Magicbox and decorate it at your convenience!

Made of cardboard often to ensure long duration, it is disassembled in four pieces and is easy to assemble in a few minutes.

Many possible effects:

- 1) Show an empty shoes box, make your fingers and make them appear!
- 2) Get on stage in slippers, as if you were forgotten to put the shoes: the audience will laugh, then show an empty shoes box, make your fingers and voilah! Problem solved: show shoes appear immediately!
- 3) Perform the classic effect of the shoe that burns and let the child's shoe reappear inside this box.
- 4) While perform your show, take this shoe box and open it, show that it is completely empty by saying that it is as you wear your shoes, indicating your feet ... now put the box aside and continue with your show ... after a few minutes, direct the audience's gaze towards your feet. The shoes have disappeared and you are now barefoot or wear the socks. Ha! Ha! No problem, disappear your fingers and your shoes will reappear in the previously empty box!

toy will appear!
