

## Ordered Triumph by JT Magic

### Ordered Triumph

is a new version on the classic Triumph plot with a surprising ending. The deck is shuffled face up and face down. The spectator picks a card, puts it back into the deck. The magician shuffles the deck one more time. All the cards are messy. Finally, all the cards turn into one direction, except for one card, that is the spectator's chosen card. Not only that, but all the cards also go back to the new deck order!

### Advantages:

- Clean and direct, no difficult sleight of hand required.
- Match most of the playing cards manufactured by USPCC. You can choose your favorite back design.
