

Daniel Schneider Limited Edition - Pokerdeck

Daniel Schneider's signature deck with the same name of the designer is characterized by pure minimalism. Besides two white signatures and a white border, the back design is completely black. A bold design choice with an elegance that runs through the entire deck.

All 52 face cards got completely redesigned by Daniel Schneider with an attention to detail that already brought well-known magic companies and deck designers to use his face cards for their own decks.

You'll find several reveals on the court cards and three additional gaff cards in the deck - including an Angle Z gaff - for your magic routines.
