

instaCAAN RED by Joel Dickinson

After placing a prediction card face-down, you introduce a deck of cards and a participant or two decide on a number between one and fifty two.

The cards are freely counted down to your spectators decided number, arriving at one card. AMAZINGLY their selection matches your prediction PERFECTLY.

The effect doesn't stop there, you have now set up your audience for the unexpected finale. You spread the deck of cards face up, revealing EVERY card is completely blank. Leaving your audiences astounded.

And not only that, EVERYTHING is EXAMINABLE.

It's easy to do, it's quick to reset & guaranteed to get great reactions.

Learn it in no time and it lasts a lifetime.
