

ONDA V2 (Black and Gold) by Jocu - Pokerdeck

In 2021 ONDA became our most successful playing cards project on Kickstarter. Exploring the fantastical inhabitants of a hidden, undersea world, ONDA was widely loved for its vivid, unique artwork by artist Alessandra Gagliano and the wonderful words of Ilaria OrrÃ¹ who wrote the accompanying story, tying dozens of real-world sea-creatures to the characteristics of the curious protagonists.

Now ONDA returns with a host of new characters, forming the perfect partnership with the original series. With brand-new artwork carefully designed to complement all the strengths of the original series, **ONDA V2** will expand the range with new courts, new vivid colors and all the same high quality you've come to expect from ONDA and all Jocu Playing Cards decks.
