

## Spectrum Sharpie by Craig Petty & TCC Magic

The Trick EVERY Magician Will Want!

Working with Craig Petty, this is **Spectrum Sharpie**.

Craig Petty has taken the classic color-changing penknives effect and reimagined it with a modern twist-built into something every magician already carries: a Sharpie.

- Instant reset
- No pocket space required
- Totally examinable
- No angles
- Incredibly easy to do
- Insanely commercial
- And yes... the Sharpies actually write!

You get three specially designed Sharpies that let you visually change the logos from black to red, swap them between markers, and-just when they think they've seen it all-the logo morphs into a stunning, multicolored spectrum finish!

These Sharpies enable color-changing effects, mind-reading routines, and open up countless possibilities for creative magic.

Craig has packed over an hour of killer routines and ideas into the tutorial, making this one of the most practical and hard-hitting tools you'll ever own.
