

Super Flower Box by Tora Magic

Want to produce an object for the audience? How about 12 times?!

The magician shows an empty frame to the spectators. Reaching into the frame, he pulls out a beautiful transparent box filled with paper flowers, to everyone's surprise. Then, he makes a second one appear! He's not done yet: in total, he can make 12 of them appear!

12 boxes of flowers from an empty frame!! It looks fantastic!
