

Magical Menu by Tora Magic - Bühnentrick

Start your performance by presenting a menu containing various types of drinks. Ask the audience to mix the drinks, then put them back on the menu. Show the back of the menu: a drink has already been predicted. Finally, ask the audience to choose a drink: this is when the real magic happens. In fact, the drink chosen by the audience is the one you had predicted and which is, from the beginning, on the back of the menu itself!
