

amVicious (Blue) by Victor Zatko

AmVicious

is the most direct ambitious card effect. A card is inserted in the deck and immediately rises to the first position. No move, no miss-direction.

As soon as the spectator or the magician pushes the card in the deck, the card jumps in the first position.

AmVicious is incredibly easy to do and feels like superpowers.

The effect is so direct and so clean, your spectators will hallucinate.

You can repeat the effect as many times as you feel, as there is absolutely no reset.
