

Chroma Cube by Mr. Magic

Your search for a colorful stage magic ends here. Thank you for buying this wonderful trick which is not only amazing but also has several climaxes one after another which will keep your audience spellbound for several minutes. And the best part, it is easy to perform.

EFFECT - There is a nicely designed acrylic box which the magician takes out a black cube that has a bright RED spot on each side. The oriental box is shown to be otherwise empty. He then shows a black cloth bag which also has a large red spot on both sides. He puts the cube in the bag and makes some mysterious gestures. After the gestures he takes it out again, the cube is found to have blue spots on all sides and surprisingly, the spots of the cloth bag are now also blue!

The cube is now put inside its oriental box and covered with the lid. The bag is turned inside out and to the surprise of everyone the colored spots have changed to multicolor matrix design! The cube is then taken out of its box only to find that it has turned into multi-colored Rubik's Cube! The box is seen to be otherwise empty.
