

Donut Box by Gustavo Raley

A unique way to get a donut. After showing images of various donuts in different colors, the spectator chooses one. You open the empty donut box, place the image inside, close the box, say the magic words, and when you open the box again, the image has transformed into a real donut of the selected color.

The trick includes a fake donut, but you can also use a real one. It also includes cards and a video tutorial. The illusion is very visual and you can share it on your social media.
